# THE ALLEN STENOGRAPHIC INSTITUTE

15 STATE ST., and (Elevator) 47 DEVONSHIRE ST.,

— BOSTON. —

— 125 WORDS. —

THE OLDEST AND LARGEST SHORTHAND SCHOOL IN NEW ENGLAND.

By our **METHOD** all students are enabled with the first Exercise to write ordinary language with from *one-sixth* to *one-tenth* as many strokes as the common long-hand writing, and consequently much more rapidly. Each subsequent Exercise enables them to write with fewer strokes than the preceeding one; therefore, if a student has *inclination* and opportunity to practice he is **CERTAIN** to gain in speed, and in from three to six months *writing with fewer strokes than any other system*, can attain the highest degree of proficiency. For several reasons it is *easier than any other to read*.

Ours is a **MODERN METHOD**; each step is applied practically as in the modern plan of learning other Arts and Sciences.

"**UNIVERSAL PHONOGRAPHY**," our text-book, containing a large part of our Method has had such a phenomenal and unprecedented sale that a second Edition had to be published in the same month as the first, and in the second month twice as many as either the first or second Edition. It is rapidly superseding former methods, being taught and used in nearly all sections of the country.

In fact, our Method is more *rapid*, more *legible*, more *systematic* and therefore *easier* than any other, as attested by the host of "experts" reporting verbatim with it, Court Proceedings, Sermons, Lectures, Business Men's Letters, etc.

Strongly endorsed by Thomas Hill, D. D., L. L. D., Ex-President of Harvard University; R. M. Pulsifer of R. M. Pulsifer & Co., props., Boston Herald; Youth's Companion; N. E. Conservatory of Music; N. E. Journal of Education; Popular Educator; and nearly all the prominent newspapers in the United States.

*The best facilities for securing remunerative positions for our graduates.*

# THE SOMERVILLE SENTINEL,

Published Weekly at

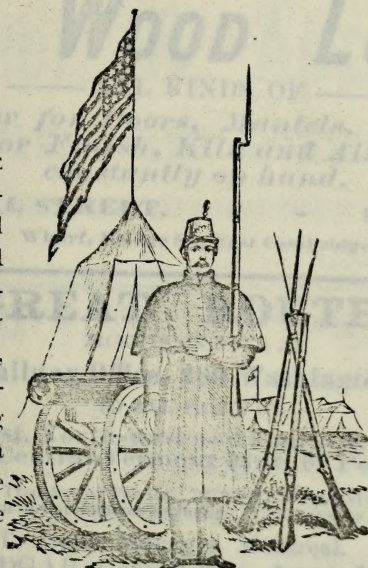

MASONIC BLOCK, UNION SQUARE.

It is acknowledged to be the neatest and best printed weekly newspaper in New England.

RESEMBLES  
NO OTHER PAPER  
IN NEW ENGLAND.

[From the Boston Herald.]

THE SOMERVILLE SENTINEL is remarkably handsome in appearance, and resembles no other paper in New England. It will find strong competition, but here is good luck to it!

In its columns will be found local matters that will interest every resident of the city of Somerville.

## PREFACE.

---

We take pleasure in presenting herewith the SOMERVILLE CITY DIRECTORY for 1887, the present edition numbering 12 in the regular series. We do not presume to affirm that the work is perfect in every particular. We can only say that we have employed the most reliable canvassers and have reason to believe that the canvass has been faithfully done. It is no small undertaking to get correctly the name, residence and business of every citizen in a large and growing community. We especially ask our patrons to remember, that no fixed rules govern the spelling or pronunciation of proper names. In looking for a particular name, therefore, one must know how the person himself spells and pronounces it. The observance of this rule will prevent some perplexity and unjust criticisms.

The citizens of Somerville may be congratulated on the fact that their city is having an exceptionally rapid growth, as shown by the following synopsis.

Names in 1887	11,261
“ “ 1885	10,332
Increase over last edition	929

Our directories are placed on file with Messrs. Henry F. Gillig & Co., American Exchange and Reading Room, 449 Strand, Charing Cross, London, W. C., and at 35 Boulevard des Capucines, Paris.

We would express our appreciation of the uniform courtesy extended to our canvassers while engaged in their work.

We remain, very respectfully,

W. A. GREENOUGH & CO.

### DIRECTIONS TO KEY HOLDERS.

When a fire is discovered, go to the nearest box to the fire, pull the hook down and let go: by listening at the box a small bell will be heard, which indicates that the alarm is being given; if possible, wait at the box and direct the firemen to the fire.

Never sound an alarm for fire seen at a distance.

Never open the box except to give an alarm of fire.

Never give a second alarm for the same fire, after the department has arrived, without an order from the officer in command of the fire.

Alarms are given in the following manner:—To announce the existence of a fire from box 35, the bells will strike three blows, a pause, then five blows, thus: III—IIII.

Signs giving information where keys to the signal boxes are kept, are placed over each box, which citizens are requested to become familiar with, that there may be no delay in sounding an alarm.

Hose Companies, Nos. 1, 2, 3 and 4 will answer first alarms from the following boxes, namely:—

Hose No. 1. Box 12, 112, 13, 113, 14, 15, 16, 17, 18, 19, 21, 221, 23, 24, 25, 225, 26, 27, 31, 32, 33, 34, 35.

Hose No. 2. Box 112, 14, 16, 17, 18, 228, 31, 32, 33, 34, 35, 36, 38, 4, 41, 42, 43, 45, 46, 47, 48, 49.

Hose No. 3. Box 12, 112, 13, 113, 14, 15, 19, 21, 221, 23, 24, 25, 225, 26, 217, 27, 227, 28, 228, 29, 31, 42, 46.

Hose No. 4. Box 27, 217, 227, 28, 228, 29, 35, 36, 38, 4, 41, 42, 43, 45, 46, 47, 48, 49.

Any person having a key, who should change his residence or place of business, will please return the key to the nearest Fire Department building, or to a police officer.

Engine Company No. 1, and Hook and Ladder Company No. 1, will answer all alarms.

Hose companies not responding to a first alarm, will answer to a second alarm from the same box, or first alarm from any other box, while that portion of the Department which has answered the alarm is in service.

Two blows on the fire-alarm bells is the signal that the fire is extinguished and the Department dismissed.

Meridian one blow on the alarm bells denotes 12 o'clock, standard.

**BATH CHAIRS.****TRUSSES,**

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. N. B.—Ladies attended by those of their own sex.

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers

"The Committee have no hesitation in awarding for this superb exhibition the highest premium \* \* \* The various other instruments for inhalation of a ozonized liquids, and for Local Anaesthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture.

GOLD MEDAL.
